Quality Policy & Objectives

Quality Policy & Objectives

Understanding the significance of Internal Quality Assurance Systems (IQAS), the IQAC has attempted over the years to systemize processes through which quality enhancement can be achieved. The IQAC has also perceived that quality enhancement initiatives need to be decentralized, rather than nodal, with several activity heads being appointed and each one deploying their activities as a separate team.

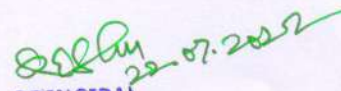

The college IQAC policy for all stakeholders is included through involvement. This policy ensures that all stakeholders, mainly the staff and students involve themselves in all activities of the college during their tenure.

To align with the college vision and mission, the IQAC sets the following objectives:

1. To define quality parameters for the college.
2. To monitor the quality aspects of the institution.
3. To intervene and guide the departments wherever necessary for quality enhancement.
4. To create, operate and monitor a decentralized system for all activities.

The IQAC has, from time to time, adopted the quality parameters set by statutory agencies such as the UGC, NAAC, State Government and the University and used them to assess and assure that quality is maintained.
